

Hello,

My name is Moonfist-Myke Colbert and I am standing for Council for the District of Sooke. Election Day is November 19, 2011 and I'm asking for a lot of people to do something important. Take the time this year – Vote! The Electorate of the District of Sooke need to Vote. This Community is something to look at and is developing. Whichever way Community Involvement in the Democratic Process goes, it will be done well, in good grace. Our Community is to be commended on its empathy and compassion. Votes demonstrate the care about the importance of structured growth and new vision for possible futures.

I don't say everything is perfect, other than it is perfectly now – it is a part of the fabric of life.

The Community has structure and is good. Care and respect for what we have, with understanding the need for new is something that is required by all Public Servants. As a Public Servant one is to realize the depth of what doing things for others is all about. Serving as a Councillor means doing things for all of the residents of our District.

I am offering to the District of Sooke a directness and rhythm that I feel in my Heart. One that I hope can be used to help us have responsible, wholesome communications throughout the District of Sooke. Responsibilities of communication are things I appreciate. Healthy living choices are for us to find for our Community. All Community Groups are welcome to District of Sooke Municipal Office – City Hall. Sit and talk or ask questions, see Park plans and maps or to pick-up paperwork. Administration and the Elected of the People of The District of Sooke are what it takes to run a town. Ours is a small town and at this point in history it is a place that direction and energy will be seen within the 3 year time period of a term of Municipal Office.

Cheers & Blessings,
Moonfist-Myke Colbert
